

Sustainable, equitable and viable food systems: civil society messages for the International Year of Family Farming and beyond

Side event Wednesday 9th October, 12.30 – 14.00

in the Austria Room

Interpretation English - Français - Español

Snacks will be served

This side event will give examples and characteristics of sustainable, equitable and viable food systems, including crop and livestock production. Examples and experiences from transition processes will be highlighted. Implications for public policies and responsible investment will be discussed. The International Year of Family Farming in 2014 provides opportunities to present and promote sustainable, equitable food systems.
