

MORE and BETTER

An international network for support of food, agriculture and rural development to eradicate hunger and poverty

Organize workshops on the Sustainable Development Goals

More and Better Network (MaB) can contribute to advance some of the [Sustainable Development Goals](#) (SDGs). We encourage member-organizations in MaB to organize meetings with the aim to: discuss what is needed to reach some amongst the SDGs in your country; how your government can contribute to advance the goals through international policies; and to propose needed policies and actions to governments. [Read more on SDGs we want to prioritize](#)

Have any of you joined the 4 per 1000 initiative?

In our newsletter of January, we informed about the [French initiative 4 per 1000](#), which “aims to improve the organic matter content and promote carbon sequestration in soils through the application of agricultural practices adapted to local situations both economically, environmentally and socially, such as agro-ecology, agroforestry, conservation agriculture and landscape management.” We would like to know if any of the members of MaB has joined the initiative, and if any of you have plans linked to it. Please, share with us by emailing at secretariat@moreandbetter.org

We have selected for you some of the more interesting reports that we recently posted on the **Agricultural Transition** website. If you find them useful and wish to receive more updates from Agricultural Transition, please follow this [link](#) and fill in the subscription form for the newsletter on the homepage; alternatively you can send the request directly to the MaB secretariat.

These reports are available on Agricultural Transition in English only.
