What kind of food production can

- Drastically reduce poverty
- Reduce climate change
- Restore biodiversity, soil fertility and water resources
- Improve livelihoods and provide employment for billions of people
- Produce enough, good and nutritious food for 9 billion people or more?

How can we defend and promote small scale ecological food production?

Quel type de production alimentaire peut

- Réduire radicalement la pauvreté
- Réduire le changement climatique
- Restaurer la biodiversité, la fertilité des sols et les ressources en eau
- Améliorer les conditions d'existence et assurer un emploi pour des milliards d'êtres humains
- Produire de la nourriture en quantité, en qualité et riche en éléments nutritifs pour 9 milliards d'êtres humains ou plus ?

Comment pouvons-nous défendre et promouvoir la production à petite échelle des aliments biologiques?

¿Qué tipo de producción alimenticia puede

- Reducir drásticamente la pobreza
- Reducir el cambio climático y refrescar el planeta
- Restaurar la biodiversidad, la fertilidad de los suelos y las fuentes de agua
- Mejorar la calidad de vida y darle empleo a miles de millones de personas
- Producir suficiente comida buena y nutritiva para más de 9 mil millones de personas?

¿Cómo podemos defender y promover la producción de pequeña escala de alimentos ecológicos?
